

# ZIED BEN LTAIFA

## PRE-ENGINEERING STUDENT

I am a motivated pre-engineering student at MedTech with an increasing interest in renewable energy and sustainable innovation. My exposure to teamwork and creative problem-solving in the Smart Mirror system project and STAFIM Peugeot internship has developed my technical and skills. This opportunity to combine technology and clean energy and acquire real-world engineering skills excites me, and I look forward to using the knowledge to make a positive impact on the environment.

### EDUCATION

- Second year of Pre-Engineering at MedTech university 2024 - present
- Awarded second place in the First-Year Pre-Engineering Group Project Competition for developing the "Smart Mirror" project
- Finished 3 coursera courses about programming languages 'C' and 'Java'

### WORK EXPERIENCE

#### INTERNSHIP AT THE STAFIM PEUGEOT

JUIN/2025 - JULLY/2025

- Assisted engineers and technicians in monitoring vehicle maintenance and diagnostic procedures.
- Observed workflow and organizational processes in the automotive industry.
- Contributed to daily reporting and documentation of service tasks.
- Gained first-hand exposure to mechanical systems, teamwork, and workplace communication in an industrial setting.

#### HUMAN RESOURCES MEMBER – PES IEEE STUDENT BRANCH, MEDTECH UNIVERSITY

OCTOBER/2025 - PRESENT

- Coordinate recruitment and onboarding of new members within the Power & Energy Society (PES) branch.
- Organize team meetings
- Support planning of technical and social events to increase student engagement

### SKILLS

- Basic Programming (C, Java, Arduino, MircoC, Proteus, AutoCAD)
- Great communication and leadership skills

### LANGUES

- Arabic** : Mother Language
- English** : Fluent
- Frensh** : Fluent
